Public Hearing

Public Hearing:

Public Hearing Regarding a Petition to Install one SO Pole at 54 South Main Street, Florence
15.521 Pole Petition from National Grid for 54 South Main Street, Florence

Lisa Jasinski from National Grid was on hand to address the petition. The pole will be erected on the public way with a wire running across the street to keep the pole steady. The wire will proceed to a third pole for additional stabilization. Ms. Jasinski visited the site with DPW personnel who had a concern with the petition drawing that was originally submitted. The sketch has since been revised and approved by DPW.

Councilor O'Donnell asked a question about maintenance of utility poles and specifically about double poles that are seen throughout the city; Ms. Jasinski explained how jurisdiction is determined and that there has been some effort to take down double poles once they have served their purpose.

Ann Techner of 54 So. Main Street, Florence addressed the council with questions as this pole is proposed to be placed at her address. Ms. Techner asked if there is a way to reinforce the pole other than what was proposed. Ms. Jasinski indicated that because of the curve in the road as depicted on the sketch, there is a lot of pull on the wire. To make sure that the constructed pole remains erect, the best approach is to run a wire to a pole across the street and then run a guide wire to a third pole. Aesthetically, this approach is best.

Mayor Narkewicz indicated that Gov. Baker has submitted a bill that would provide reinforcement language to a law already on the books to take down double poles within 90 days. Councilor O'Donnell said that there are certain towns that have local laws pertaining to removal of double poles within a timely manner.

**Update on Water

Study**

Update on Water & Sewer Rate Study

Mayor Narkewicz gave the City Council an update on the status of the Water and Sewer Rate Study. An overview presentation was given by Woodcock and Associates, Inc. and Rafetelis Financial Consultants, Inc. In February Mayor Narkewicz plans to present a comprehensive rate program for the city that will likely include some of the recommendations made by the consultants. The City Council will have an opportunity to review the recommendation and vote on the plan presented by the Mayor.

Mr. Dave Fox of Rafetelis Financial Consultants, Inc. spoke first. Rafetelis Financial Consultants, Inc. has the largest consulting practice in the nation that focuses on financial /rate consulting for water and wastewater utilities. Woodcock and Associates, Inc. has a long history of consulting services to New England Utilities than any other firm. RFC _ W-A have worked together for nearly 10 years.

The mission of the firms was to assess the appropriateness of the city's current rate structure in comparison to Northampton's rate structure objectives. They were also tasked with developing a forecast of water and sewer rates to fund all current and future operating and capital projects. Critical elements of the plan had to: promote conservation; provide assistance to economically disadvantaged customers; improve equity among customer types; and enhance revenue stability.

While developing a plan, RFC/W-A worked closely with city officials to understand the current approach. The firms also took into consideration the city's capital needs for both water and sewer over the next decade.

Regarding the current water rate structure, the consultants noted that all customers are charged the same volumetric rate regardless of type, size or the amount of water used. There is a very small fixed charge assessed, however, the fees collected for this recovers very little of the City's fixed cost of operations. Regarding sewer rate structure, all customers are charged for sewer services based on 100% of metered water consumption, except for a small number of large industrial customers.

The consultants, along with city officials, are considering several options for water and sewer rates in the future. There are several approaches to setting rates to cover the fixed costs associated with a water distribution system, water usage, and other services provided to customers. These include the following: having seasonal rates, establishing a tiered water rate structure, determining fixed charges to cover the city's fixed costs, establishing a second meter policy, having additional charges for private fire protection charges. The team also analyzed sewer rate setting methodologies.

The study recommendations suggest that the city provide economic assistance to customers who qualify. They also suggest creating a two-tiered water rate structure for small meters to promote conservation. Implementation of a larger fixed charge will ensure that the fixed costs associated with the water sewer system will be covered during times of low demand. The study also recommends creating a new private fire protection charge. Currently this service is "free" to customers and under the current rate structure, the cost of providing this service is borne by all water/sewer customers. Finally, the study recommends that sewer rates be billed at 80 % of metered water consumption.

**Fiscal Year 2016
Quarterly
Financial Update**

Fiscal Year 2016 Quarterly Financial Update

Finance Director Susan Wright presented the quarterly report regarding the city's financial status. Two packets of information were distributed; the first was a summary of the General Fund; the second was a summary of the Enterprise Funds (water, sewer, solid waste, and stormwater).

The General Fund packet shows revenue from taxes, charges for services, licenses and permits, federal revenue, state revenue, fines, and other miscellaneous sources. The revised revenue shows the goal is \$84,169,326; the remaining revenue yet to collect for the remainder of the fiscal year is \$46,967,854.

Regarding spending patterns for some departments, Director Wright explained that while the percentages of spending seem high, they don't necessarily reflect a concern. Certain departments spend from their OM account before they begin spending on a grant, for example. Also, certain departments have recurring annual expenses that are assumed at the beginning of the fiscal year and then won't happen again until the next fiscal year. Finally, the Parks and Rec. Dept. and the Senior Services accounts have certain expenses that are

paid for out of revolving fund accounts; the journal entries for these transactions are done periodically throughout the year.

School budgets are not included in the summary reports.

The Enterprise funds are set up the same way as the General Fund. The first section shows revenue and the last section shows spending of those funds. All funds are on track. Regarding liens, Director Wright explained that the liens protect the city from non-payment. If bills continue to go unpaid, a lien is put on the property; if the property is sold, the lien will ensure the city is paid any back fees owed. Mayor Narkewicz indicated the as a general rule, the city does not turn off water/sewer due to non-payment.

Motion Carried

The following financial order passed two readings:

Upon recommendation of the Mayor

Ordered, that

The following resolution be adopted by City Council:

Resolved: Having convened in an open meeting on January 21, 2016, prior to the closing date, the Northampton City Council of the City of Northampton, in accordance with its charter, by-laws, and ordinances, has voted to authorize the Superintendent to submit to the Massachusetts School Building Authority the Statement of Interest Form dated February 12, 2016 for the Leeds Elementary School located at 20 Florence Street, Florence, MA which describes and explains the following deficiencies and the priority category(s) for which an application may be submitted to the Massachusetts School Building Authority in the future.

Priority Category 5- Replacement, Renovation or Modernization of School Facility Systems-

The current EPDM and ballasted roofing systems have been in place since the school was renovated and expanded in 1991. At this point there is an immediate need to replace approximately 12,000 sf of rubber membrane and ballasted roofing with new EPDM roofing and flashing. Also, there is approximately 5,000 sf of standing metal seam roofing that is deteriorated and which needs to be rebuilt.

The current roof system exhibits deterioration of the rubber membrane and ballasted roofs, metal roof trim and roof flashing. Rubber seams are split and lifting in places, and temporary repairs have been made over time. There are some places where the membrane fabric is beginning to show through. Also, there is deterioration of the seams of the gymnasium standing seam metal roof system, and there are water seepage issues related to the metal roof and masonry walls of the gymnasium.

An independent roofing contractor examined the roof and conducted a full analysis in the early Fall of 2013. The roofing contractor took core samples to examine insulation levels and looked to see if insulation has been compromised by any leaks. The contractor's report provided short and long-term recommendations for addressing the roof system. It's important to note that while the rubber roof system needs to be replaced, its deterioration hasn't reached the point where the rigid insulation has been compromised to the point where the

material will need to be replaced.

And hereby further specifically acknowledges that by submitting this Statement of Interest Form, the Massachusetts School Building Authority in no way guarantees the acceptance or the approval of an application, the awarding of a grant or any other funding commitment from the Massachusetts School Building Authority, or commits the City of Northampton to filing an application with the Massachusetts School Building Authority.

Councilor O'Donnell moved to amend the rules and provided a written summary of the changes as follows:

1. Correct Table of Contents
2. Correct the process of hiring the Administrative Assistant to the City Council;
3. Add Public Comment to the city council order of business
4. Change the matters requiring one vote to include adopting the city council rules.

Councilor Sciarra seconded the motion. The motion was approved on a voice vote of 8 Yes, 0 No, 1 Absent (Councilor Adams).

**Motion to amend
by deleting
wording**

Councilor Sciarra moved to change the rules by removing the wording pertaining to CDBG funding awards under the Committee on City Services. This would allow councilors on other committees to take part in the CDBG funding process. She also proposed that the duties of the council president be amended by adding, "To recommend and consent to the appointment of councilors to serve on a body convened by the Mayor".

Councilor Klein suggested that the additional language under the council president duties is not necessary.

Councilor Murphy pointed out that the council would then be requiring the council to accept the Mayor's appointment.

Councilor LaBarge was concerned that the City Services committee would not continue to be part of the CDBG funding process and that if the City Services committee was no longer going to be involved, she would not be participating on that committee.

**Motion to

IV. Public Hearings

1. Public hearings, when called, will be conducted in the following manner:
 - A. The presiding officer will announce that it is time for a Public Hearing and will announce the subject of such hearing.
 - B. The presiding officer will review evidence of adequate advertisement and legal notice and, if found to be appropriate and proper according to law, will have the advertisement read into the record. The presiding officer will then explain the procedure to be followed, including the time limits on speakers' and the fact that each speaker shall give their name and address for the record. By majority vote the City Council may extend the time granted to a particular speaker by the presiding officer. The chair may limit testimony that is repetitive.

A five-minute time limit shall apply but the Council could extend the time on a majority vote.
 - F. Before opponents to an application or petition are called to speak, a member of the Council may move for invocation of a summary procedure and, if seconded and approved by a majority of the quorum, may subsequently move to deny the request made by the applicant, based on a finding that the evidence presented was not adequate to justify the request. If the motion for denial is then seconded and is approved by the quorum, the public hearing may be deemed complete.
 - G. Those persons speaking in opposition to the position taken by the principal proponent are then allowed to speak, each being allowed to express the fact of their opposition and to present such supportive information as was not included in previous presentations before the Council. A five-minute time limit shall apply and the Council could extend the time on a majority vote.
 - H. After all opponents have been heard, the presiding officer will then allow the proponent and or project staff person to respond to any issues/questions raised by the opponents.
 - I. After the proponents have responded to the opponents, the opponents shall have an additional opportunity to respond, the presiding officer shall determine which opponent shall respond at which time. A three minute time limit shall apply but the Council may extend the time by majority vote. The motion to extend time is non-debatable.
 - J. The presiding officer will then enter all documents received concerning the matter into the record. The applicant or project staff may then answer

any questions raised in the letters.

- K. If new information is presented the presiding officer or the Council may allow additional time for the appropriate party to respond. Immediately or in writing later but before the close of the public hearing.
- L. The presiding officer will then hear questions from the general public regarding aspects/issues that have not been addressed in previous testimony. The presiding officer shall refer questions to the appropriate person and may rule questions out of order if the subjects of the questions have already been addressed. Questions may also be submitted in writing.
- M. At any point, a public hearing may be continued or postponed to a time, place and date certain, provided that these rules and procedures are adhered to when it is resumed, or may be continued or postponed to a time, place and date not certain, providing required advertising and notice procedures are followed to announce the time, place and date of resumption.
